

Supporting transformation and quality in Building Standards

Scottish Building Standards Hub (SBSH)
Periodic Operational Report

Covering Period from 1st April 2025 to 30th June 2025

Supporting transformation and quality in Building Standards

Produced by the Scottish Building Standards Hub.

August 2025.

Document Version Control.

Title: Scottish Building Standards Hub (SBSH) Quarterly Operational Report covering period from 1st April 2025 to 30th June 2025

Purpose: This document outlines progress of the Scottish Building Standards Hub (SBSH) against its business plan.

Version:	Date:	Notes:
1.0	15.07.2025	Initial draft.
1.1	24.07.2025	Additional technical reporting data added.
1.2	19.08.2025	Learning and development reporting data added.

Supporting transformation and quality in Building Standards

Introduction:

This Periodic Operational Report details the progress made by the Scottish Building Standards Hub (SBSH) in relation to the implementation of its Business Plan for the period of 1st April 2025 to 30th June 2025 (Quarter 1 2025/26). In addition, this document also contains details of SBSH performance outcome reporting.

SBSH budgetary position is reported separately in document 'SBSH Running Budget and Actual Costs V1.0'.

SBSH time/activity position is reported separately in document 'SBSH Time Percentage on Activity_V1.1_17.07.2025'.

SBSH business risks are reported separately in document – 'SBSH Risk Register V1.5'.

Report:

1	Implementation of Business Plan:			
1.1	Business/Strategy/Transformation:			
1.1.1	Successes against identified aims (2025/26):			
	Recruit personnel to all posts within the SBSH:	Q1		
1	Appointment to the post of Technical Support Surveyor (Learning and			
	Development) has been made. Successful candidate to start in August			
	2026.			
	12-month overview of all posts within the SBSH as per Fife Council			
	policy for newly established roles has been undertaken on all roles	2500		
	apart from Technical Support Surveyor (Learning and Development).			
	That role will be due for review in Q4. Outstanding action taken as BAU.			
	Back Office Case File and Workflow Systems:	Q1		
	Idox Uniform system in place and case files have been back populated			
	to 01.01.2025 to enable better historical data recording.			
	Single Sign on to LXP Platform:	Q1		
	Single sign on facility for verifiers to access the new LXP learning			
	management system from the SBSH website has been established.			
	Mobile Technology App:	Q1		
	App features and functionality established. Tender documentation			
	prepared and suitable app developers identified. Quotations sought.			
	Digital Delivery for Local authority Verifiers on Emerging Reporting	Q1		
	Requirements:			
	Proposal prepared outlining LABSS wish in terms of a time recording			
	platform to report on compliance activity and has been accepted by the			
	time recording working group. Survey established and circulated to			

	gauge national position for development. Initial engagement with Idox						
	undertaken as an awareness of potential development.						
1.1.2	Outstanding actions against aims (2025/26):						
	Recruit personnel to all posts within the SBSH:						
	• 0.5 FTE Administration and Technical Support Role – Conclude establishment of						
	back-office IT systems and overview of established full-time role and then re-						
	evaluate the need and/or amendments to this role. (Conclude by January 2026)						
	Back Office Case File and Workflow Systems:						
	Whilst Idox Uniform system is in place, access for all staff is to be concluded.						
	(Conclude August 2025)						
	Establish permanent workflow system either using Idox Enterprise with be-spoke						
	reporting and workflow for the SBSH or develop own workflow and reporting						
	through Microsoft Power BI. (Conclude March 2026)						
	LABSS DDG Terms of Reference and scope/remit of SBSH support:						
	Review and refresh LABSS DDG Terms of Reference and the scope/remit of SBSH						
	support to the group following conclusion of LABSS reshaping exercise. (Conclude						
	December 2025)						
	Mobile Technology App:						
	• Review returned quotations, consider tenders and appoint app developer.						
	(Conclude September 2025)						
	• Develop app and undertake UAT/feedback through working group and wider.						
	(Conclude February 2026)						
	Wrap up working group and launch app. (Conclude April 2026)						
	Digital Delivery for Local authority Verifiers on Emerging Reporting Requirements:						
	Provide national support to verifiers in delivering the emerging short-term and long-						
	term reporting of compliance activity. Primary focus is on a national time recording						
	system, but other digital recording opportunities may be explored.						
	• Review survey findings to establish the national position to enable what level of						
	support is required to implement a national time recording system and						
	methodology. (Conclude April 2026)						
	Compliance Plan Approach:						
	Continue to support the 'Compliance Plan Working Group' and support initiatives						
	and development outcomes, which may include interim compliance plan roll out						
	using current CCNP processes, development of platforms to hold compliance plan						
	information and record progress, and review of verification during compliance						
	guidance, etc.						
	Providing support to the reconvened Compliance Plan Guidance Sub Group to						
	support the SG commitment to 'Introduce Local Authority Verifier led guidance						
	to implement the principles of the Compliance Plan Approach to building						
	warrant projects by December 2025' The above wording taken from the invite to						
	this working group.						
1.1.3	Changes/new strategic goals against aims (2025/26):						
	None.						

1.2	Technical/Operations/Services:						
1.2.1	Successes against identified aims (2025/26):						
	Structural Engineering Expert Hub (StructuralHub):						
	Initial paper prepared to shape the actions and direction of the working						
	group. Paper based on brief and survey work undertaken through the	- 52					
	hub pilot work.						
	STAS Process Review:	Q1					
	• STAS process review concluded, and new guidance and systems						
	developed.						
	Local authorities and stakeholders informed of new processes and						
	forms, etc. Website also updated.	Q1					
	Dispute Resolution Process Review:						
	 Process review concluded and new guidance and systems developed. 						
	 Local authorities and stakeholders informed of new processes and forms, etc. 	1					
	Information Paper Process Review:						
	We have concluded a revised format for Information Papers and this has	Q1					
	been implemented through two new information papers published in						
	May 2025.						
1.2.2	Outstanding actions against aims (2025/26):						
	Structural Engineering Expert Hub (StructuralHub):						
	• Establish working group and from experiences in developing FireHub, use same						
	principles to formally introduce the StructuralHub.						
	 Develop operational partnership element of StructuralHub to enable peer 	review of					
	complex structural design.						
	 Develop the forum element of StructuralHub to consider matters o 	f national					
	interest in relation to structure and structural design.						
	• Inform local authorities and stakeholders of StructuralHub creation, services and						
	activities. Publicise the same. (Conclude March 2026)						
	LABSS CTWG Terms of Reference and scope/remit of SBSH support:						
	Review and refresh LABSS CTWG Terms of Reference and the scope/remit of SBSH						
	support to the group following conclusion of LABSS reshaping exercise. (Conclude						
	December 2025, subject to progress of the LABSS reshaping exercise)						
	STAS Process Review:						
	Consider and establish new fee scales. Consider STAS released in a La Scattish Type Approint System (Consider).	l- l					
	 Consider STAS rebranding. I.e. Scottish Type Appraisal System. (Conclude January 2026) 						
	Information Paper Process Review:						
	 Continue and conclude process review and develop new guidance and sy 	stems.					
	 Inform local authorities and stakeholder of outcomes and new processes, etc. 						
	(Conclude January 2026)						
1.2.3	Changes/new strategic goals against aims (2025/26):						
	None.						

1.3	Learning and Development:					
1.3.1	Successes against identified aims (2025/26):					
	Competency, Validation and Skills Builder:	Q1				
	• The work of the Competency Steering Group has been supported in the					
	development of the digital CAS (Skills Builder) The platform has been	- 5				
	developed in is in its initial working stage. See below regarding UAT.	\mathcal{A}				
	A digitised CAS guide has been developed and is published informing					
	users on the methodology of the digitised CAS and how roles and					
	competencies relate to the current version.					
	UAT of the Skills Builder Platform has commenced.					
	Non-verifier Industry Stakeholder Training:	Q1				
	We have engaged with a number of organisations, offering CPD on the					
	building regulations and procedures and have shared training content					
	in PDF format with a number of stakeholders. We have also offered to					
	provide input in the development of courses around retrofit to include					
	content relating to building regulations. We have also presented at					
	several events on the purpose of the hub and it's place in the Building	1547				
	Standards Delivery model to raise awareness of the services the Hub					
	can provide to assist the wider industry. Usual stakeholder engagement					
	continues as does collaboration on CPD and liaison/collaboration with					
	training and professional bodies.					
	Learning Experience Platform (LXP):	Q1				
	UAT of the SBSH LXP has been concluded and the platform is now live for					
	LABSS members.					
	Some roll out awareness sessions have been provided in the use of the					
	platform, and ongoing assistance is now considered BAU.					
	Enforcement Evidence Gathering Training:	Q1				
	Roll out of current comprehensive 3-day training events all organised					
	and delivered.					
	HNC – Architectural Technology (Building Standards Specific):	Q1				
	• Fife College engaged with and delivery of a be-spoke online HNC course.					
	To support the continuation of the BS specific MA has been secured.					
	Managers have been engaged with, and staff have been identified to					
	participate on the programme.					
	• Funding support confirmed for individuals who cannot access other					
	funding sources.					
	Leaders Development Programme:	Q1				
	Series of related VLE training modules have been ordered from LABC,					
	Order has also been placed for us to develop our own leaders					
	programme of 4 to 5 modules for the learning management system.	Q1				
	In Person Training:					
	Series of in-person training events, have been organised covering the					
	first principles of fire safety design.					

Supporting transformation and quality in Building Standards

	None.					
1.3.3	Changes/new strategic goals against aims (2025/26):					
	there after roll out programme will become BAU)	11 2020				
	 Support participation of attendees on course. Roll out programme, taking account of participant location. (Conclude Ma 	rch 2026				
	Fire – Development and Delivery of Formal Accredited Qualification:					
	training. (Conclude March 2026)					
	events, depending on budget allocation left following fire design first	principle				
	Investigate other areas where funding could be used to support people	•				
	In Person Training:					
	(Conclude March 2026)					
	Continue to develop the training material and methods for the pro-	ogramme				
	Leaders Development Programme:	1				
	 Support the development of the course material. (Conclude August 2025) 					
	HNC – Architectural Technology (Building Standards Specific):					
	day training events designed for on-site operatives encountering potential where enforcement action may be taken. (Conclude March 2026)	ai cases				
	Investigate options with training partner to develop and provide a series of the provide as a series of the provide and provide a series of the provide and provide a series of the provide as a ser					
	Enforcement Evidence Gathering Training:					
	support LABSS Ambassadors network. (Conclude December 2025)					
	Engage with LABSS to determine the scope and remit by which the SBSH of	can				
	LABSS Ambassadors Networks:					
	industry stakeholders. (Conclude March 2026)					
	 Consider collaborative approaches that have mutual learning outcomes for wider 					
	disseminated to wider industry stakeholders.					
	 Non-verifier Industry Stakeholder Training: Develop formal programme/initiatives through the SBSH that could be practically 					
	prior to formal commencement of the interim peer review process.					
	Conclude UAT of the Skills Builder Platform and implement any changes r prior to formal common company of the interim poor review process.	equired				
	Competency, Validation and Skills Builder:	a a				
1.3.2	Outstanding actions against aims (2025/26):					
	fire engineering and fire safety design course for Scotland.					
	Engagement has taken place with LABC to develop a formal accredited					
	Fire – Development and Delivery of Formal Accredited Qualification:	Q1				
	BAU.					
	 Programme of events and locations set. Initial set events now considered 					
	day events on the principles of fire engineering and fire safety design.					
	 University of Edinburgh engaged as training partner for a series of one 	QΙ				
	participate in person. Fire – First Principles:	Q1				
	participate in parcen					

2 National and SBSH Measures and Outcomes:
